Mr. Len Weiss
LW Chemical Inc.
P.O. Box 205
Mt. Olive, IL 62069

Dear Mr. Weiss:

We have evaluated the following product to establish its suitability for use as an additive to a draft beer line cleaner to enhance mineral removal.

| MATERIAL DESIGNATION | AB ID # | STATUS |
|-----------------------------|----------------|---------------|
| LW Desolve | MSD 15 – 125-2 | APPROVED |

This conclusion is based on the technical information provided by LW Chemicals and the similarity to a previously approved product AB Desolve, MSD 04-6.

This product can be use as-is or in conjunction with a caustic based line cleaner to enhance mineral removal.

This material will be used in a flavor-critical application. Any changes in raw materials, manufacturing process or formulation must be approved in writing by Anheuser-Busch.

Please call if you have any questions.
